Samuel Pawel

Biostatistician | Statistical Software Developer | Meta-Researcher
Epidemiology, Biostatistics and Prevention Institute, University of Zurich
samuel.pawel@uzh.ch samuelpawel.ch @SamuelPawel@scicomm.xyz 0000-0003-2779-320X

I develop statistical methods for designing studies and for assessing the evidence they provide, with a focus on statistical measures of evidence (Bayesian and frequentist), study design, and the methodology of simulation studies. A common theme is how evidence from a new study combines with what is already known: in replication studies, in meta-analysis, and in clinical trials that borrow external data. I maintain several R packages on CRAN that implement these methods. I teach statistical practice and reproducible workflows in the Master Program in Biostatistics, and in workshops run through the Center for Reproducible Science and Research Synthesis and through the Swiss Reproducibility Network.

Positions

University of Zurich; Department of Biostatistics — Zurich, CH
Research Associate (Wissenschaftlicher Mitarbeiter; permanent contract) — *05/2025 – present*

University of Zurich; Department of Biostatistics — Zurich, CH
Oberassistent — *10/2024 – 04/2025*

University of Zurich; Department of Biostatistics — Zurich, CH
Postdoctoral Researcher — *04/2023 – 09/2024*

University of Amsterdam; Department of Psychological Methods — Amsterdam, NL
Visiting PhD Student — *02/2022 – 08/2022*

University of Zurich; Center for Reproducible Science — Zurich, CH
Research Fellow — *01/2021 – present*

University of Zurich; Department of Biostatistics — Zurich, CH
PhD Student — *10/2019 – 03/2023*

Earlier positions — Zurich / Wil, CH
Student assistant, University of Zurich (2016–2018); night watch, Stiftung Forelhaus (2016–2018); civilian service, Psychiatric Clinic Wil (2013–2014)

Education

University of Zurich — Zurich, CH
PhD in Epidemiology and Biostatistics — *10/2019 – 03/2023*
Supervisor: Prof. Dr. Leonhard Held
Thesis: Reverse-Bayes Methods for Replication Studies

University of Zurich — Zurich, CH
Master of Science in Biostatistics; Grade: 5.9/6.0 — *08/2017 – 08/2019*
Thesis: Predictive evaluation of replication studies

University of Zurich — Zurich, CH
Bachelor of Science in Psychology; Grade: 5.7/6.0; Minor: Biology — *08/2014 – 01/2018*
Thesis: Questionable research practices in psychological research and recommendations to overcome the current replicability crisis

2026 – SNSF Scientific Exchanges: 9'300 CHF (Co-applicant)

2022 – Mobility grant in SNSF research project: 5'923 CHF

Awards and Prizes

Master Thesis: *Predictive Evaluation of Replication Studies* – UZH Semester award for outstanding scholarly work

Invited Talks

8. Researcher degrees of freedom and questionable research practices in simulation studies. *Working Group "Quality Standards of Simulation Studies" of the Methods and Evaluation Division of the German Psychological Society (DGPs)*, Online, 2026, June

7. Replication of null results: Absence of evidence or evidence of absence? *Preclinical Rethinking Webinar*, Berlin Institute of Health at Charité, Online, DE, 2025, April

6. Simulation Studies for Methodological Research: State of the Art, Issues, and Potential Solutions (with Björn Siepe). *Methods and Evaluation / Quality Assurance Unit: Research Colloquium*, Berlin, DE, 2025, April

5. Meta-scientific perspectives on simulation studies in methodological research: Status quo, issues, and potential solutions. *Workshop on Veridical Data Science*, Rome, IT, 2025, June

4. Meta-scientific perspectives on simulation studies, *ZüKoSt: Seminar on Applied Statistics*, ETH Zurich, CH, 2024, October

3. Discussion of Campbell and Gustafson (2023): A Predictive View of the Jeffreys-Lindley Paradox (supporting Leonhard Held). *Bayesian Analysis discussion webinar*, 2024, October

2. Bayes Factors for Testing and Estimation, *NANOGrav New Physics Working Group telecon*, 2024, February

1. Pitfalls and Potentials in Simulation Studies, *ReproducibiliTea Journal Club*, Center for Reproducible Science, Zurich, CH, 2022, November

Conference Contributions

14. Talk: Stabilizing Thompson Sampling with Null Hypothesis Bayesian Response-Adaptive Randomization, *Bayesian Biostatistics 2026*, Leiden, NL, 2026, October

13. Poster: Stabilizing Thompson Sampling with Null Hypothesis Bayesian Response-Adaptive Randomization, *ISBA World Meeting*, Nagoya, JP, 2026, July

12. Talk: From the Classroom to the Clinic: Teaching Reproducibility in Statistics Education. *CEN 2026*, Warsaw, PL, 2026, May

11. Talk: Closed-Form Power and Sample Size Calculations for Bayes Factors. *SISBAYES 2025*, Padova, IT, 2025, September

10. Talk: Combined *P*-Value Functions for Compatible Effect Estimation and Hypothesis Testing in Drug Regulation. *Annual Conference of the ISCB*, Basel, CH, 2025, August

9. Talk: Handling Missingness, Failures, and Non-Convergence in Simulation Studies: A Review of Current Practices and Recommendations. *DAGStat 2025*, Berlin, DE, 2025, March

8. Talk: Replication of null results: Absence of evidence or evidence of absence? *META-REP 2024*, Munich, DE, 2024, October

7. Talk: Bayesian Approaches to Designing Replication Studies, *53rd DGPs Congress/15th ÖGP Conference*, Vienna, AT, 2024, September

6. Talk: Improving the quality of simulation studies with simulation protocols, *Swiss Reproducibility Conference 2024*, Zurich, CH, 2024, June

5. Talk: Power Priors for Replication Studies, *Bayesian Biostatistics 2023*, Utrecht, NL, 2023, October

4. Talk: Pitfalls and Potentials in Simulation Studies, *CEN 2023*, Basel, CH, 2023, September

3. Poster: Evidential Calibration of Confidence Intervals, *Workshop: "Safe, Anytime-Valid Inference (SAVI) and Game-theoretic Statistics"*, Eindhoven, NL, 2022, May

2. Talk: The sceptical Bayes factor for the evidential assessment of replication success, *GMDS & CEN-IBS 2020*, Berlin, DE, 2020, September

1. Talk: Predictive evaluation of replication studies, *Bayesian Biostatistics*, Lyon, FR, 2019, May

Organized Events

8. Conference: 1st Interdisciplinary Symposium on Meta Science for Methods Research (with Mark D. Robinson and Carolin Strobl). Zurich, CH, 2026, August/September.

7. Workshop: https://crsuzh.pages.uzh.ch/workshop-quarto-2026-unibas/ (with Fabio Molo and Peter Degen). Basel, CH, 2026, June.

6. Workshop: Reproducible Research Workflows with Quarto and R – Getting started (with Fabio Molo, Peter Degen, and Gorka Fraga-Gonzalez). Geneva, CH, 2025, November.

5. Workshop: Reproducible and Dynamic Reporting with R and Quarto – Getting started (with Fabio Molo and Gorka Fraga-Gonzalez). Zurich, CH, 2025, May.

4. Hackathon: Reproducibility Hackathon at the Swiss Reproducibility Conference 2024 on 11th June 2024. Organized with Peter Degen. 19 Participants. Report:10.5281/zenodo.12516515

3. Workshop: Dynamic Reporting (with Felix Hofmann). UZH Reproducibility Day 2023. February 2023.

2. Hackathon: Swiss ReproHack on 20th May 2022. Organized with Charlotte Micheloud, Ursa Bernardic, and Marianna Rosso. 13 Participants from all over Switzerland. Talks by Mark Robinson, Anja Eggert, Tim Errington.

1. Workshop: Design of Replication Experiments (with Leonhard Held and Charlotte Micheloud). LMU Munich. February 2020.

Instructor

STA 490 Statistical Practice in Clinical Research (MSc in Biostatistics) 2023/24/25/26
Supervisor

STA 480 Biostatistics Journal Club (MSc in Biostatistics) 2021/23/24
Teaching Assistant (2021), *Instructor* (2023, 2024)

STA 431 Longitudinal Data Analysis (MSc in Biostatistics) 2020/25
Teaching Assistant

STA 404 Clinical Biostatistics (MSc in Biostatistics) 2019/25
Teaching Assistant (2019), *Guest Lecturer* (2025)

Supervision

Samira Innocente (MSc in Biostatistics) 2026
Master thesis – A neutral comparison of e-values and traditional methods for sequential analysis in clinical trials
Consulting project – Associations between Mild Traumatic Brain Injury and Neurodegenerative Diseases: A Systematic Review and Meta-Analysis of Observational Studies

Martin Quintas (MSc in Biostatistics) 2025
Consulting project – Bleeding Complications in Partial Nephrectomy

Damian Brülhart (MSc in Biostatistics) 2024
Consulting project – Trends in cardiovascular risk factors in Switzerland: a pre vs. post COVID-19 pandemic comparison

Roberto Macrì Demartino (Visiting PhD Student) 2023
Research project – Mixture priors for replication studies

Carolyne Huang (MSc in Biostatistics) 2023
Consulting project – Single-slice quantitative MRI of the thigh for differential assessment of fasting-related body composition changes

Georgy Astakhov (MSc in Biostatistics) 2023
Consulting project – Immediate subjective effects of relaxation exercises in a mindfulness and relaxation app

Memberships and Other Roles

Research Fellow of the Institute for Replication (I4R) (since 2026)

Fellow of the Center for Reproducible Science and Research Synthesis from the University of Zurich (since 2021)

Founding member and coordinator of the Swiss Reproducibility Network Academy (since 2021)

Co-Organizer of the Zurich R User Group (from 2020 to 2023)

Member of the International Society for Bayesian Analysis (since 2020)

Member of the International Society for Clinical Biostatistics (since 2025)

Member of the International Biometric Society (IBS) (since 2025)

Member of the Austro-Swiss region (ROeS) of the IBS (since 2025)

Reviewer for Journals

Journal of the American Statistical Association (3)
